THE VICTORIA CROSS

CONTINUED FROM

"The Monthly Army Lists" of March, June, July, October and December, 1857, January, February, May, July, September, October and November, 1858, January, February, May, June, July, August, October, November and December, 1859, and February, March, June, July and September, 1860.

War Office, 7th August, 1860.

THE QUEEN has been graciously pleased to signify her intention to confer the Decoration of "The Victoria Cross" on the under-mentioned Soldier of Her Majesty's Army, whose claim to the same has been submitted for Her Majesty's approval, on account of an Act of Bravery performed by him in India, as recorded against his name, viz.:—

Military Train, 2nd Battalion.—No. 201, Private SAMUEL MORLEY.—Date of act of bravery, April 15th, 1858.—On the evacuation of Azimgurh by Koer Sing's Army, on 15th April, 1858, a Squadron of the Military Train and half a Troop of Horse Artillery were sent in pursuit. Upon overtaking them and coming into action with their Rear Guard, a Squadron of the 3rd Seikh Cavalry (also detached in pursuit) and one Troop of the Military Train were ordered to charge, when Lieut. Hamilton, who commanded the Seikhs, was unhorsed and immediately surrounded by the enemy, who commenced cutting and hacking him whilst on the ground. Private Samuel Morley, seeing the predicament that Lieut. Hamilton was in, although his (Morley's) horse had been shot from under him, immediately and most gallantly rushed up, on foot, to his assistance, and in conjunction with Farrier Murphy, who has already received the Victoria Cross for the same thing, cut down one of the Sepoys, and fought over Lieut. Hamilton's body, until further assistance came up, and thereby was the means of saving Lieut. Hamilton from being killed on the spot.

War Office, 4th September, 1860.

THE QUEEN has been graciously pleased to signify her intention to confer the Decoration of "The Victoria Cross" on the under-mentioned Officer of Her Majesty's Army, whose claim to the same has been submitted for Her Majesty's approval on account of acts of bravery performed by him in India, as recorded against his name, viz.:—

17th Light Dragoons.—Lieutenant Henry Evelyn Wood.—For having on 19th October, 1858, during action at Sindwaho, when in command of a Troop of the 3rd Light Cavalry, attacked with much gallantry, almost single-handed, a body of Rebels who had made a stand, whom he routed;

Also for having subsequently, near Sindhora, gallantry advanced with a Duffadar and Sowar of Beatson's Horse, and rescued from a band of robbers a Potail, Chemmum Singh, whom they had captured and carried off to the Jungles, where they intended to hang him.

HOME AND FOREIGN.

War Office, 23rd August, 1860.

MR. SECRETARY HERBERT having had under his consideration the allowance of Foreign Service Pay granted to Clerks of Works and Clerks of the Royal Engineers serving on the West Coast of Africa, in Schedule B. of the Warrant of 28th April, 1858, Circular No. 274, and the Regulations affecting service in those settlements, issued for the information of the Military Store Department on the 25th of January last, Circular 539, has decided after consultation with the Lords Commissioners of Her Majesty's Treasury, that the provisions of Circular 539, as to pay, length of service and leave, shall be extended to members of the Civil Staff of the Royal Engineers, and in accordance with this decision,

1. All Civil Officers of the Royal Engineer Department volunteering and being appointed for service on the West Coast of Africa shall be allowed to draw double the ordinary pay of their respective ranks during their stay on the Coast in lieu of the pay fixed for this service by the Royal Warrant of the 28th April, 1858.

2. A Civil Officer shall not be required to serve on the coast for a longer period than two years from the date of arrival to the date of departure.

3. Such two years' service on the Coast of Africa shall be allowed to reckon for increased pay and superannuation as three years of an ordinary service, and if the officer should be permitted at his own wish to prolong his stay on the coast, his service shall be allowed to count in proportion.

4. The officer shall be entitled either to a tour of home service, on his return after two years' duty on the coast, or to six months' leave of absence for each two years he shall have served there.

5. Commanding Royal Engineers will make known these Regulations to the Officers under them, and transmit from time to time to this Office the names of any Clerks of Works of the 2nd or 3rd Classes who may be desirous of service on the West Coast of Africa on the above-named conditions.

MR. SECRETARY HERBERT having had under his consideration the want of uniformity between the boundaries of the Royal Engineer Districts and of the Military Commands in England, has, with the concurrence of H. R. H. the General Commanding in Chief, approved of the following arrangements:—

1. The Northern Military District will comprise the four Engineer Districts of Newcastle, York, Manchester and Birmingham, except such portions of the two latter as belong to the Home District, and are specified in pars. 4 and 5.

2. The Newcastle Engineer District will comprise the counties of Northumberland, Durham, Cumberland and Westmoreland.

3. The York Engineer District, those of York and Lincoln.

4. The Manchester Engineer District, Lancashire, Cheshire, Derbyshire, Flint and Denbigh, the Isle of Man, and those counties of North Wales in the Home Military District which are more accessible by railway from Manchester than from London—the Head Quarters of the Home District—or from Pembroke, the Head Quarters of the South Wales Engineer District, viz., Anglesea, Carnarvon, Merioneth and Montgomery

CIRCULAR, No. 628—*continued.*

5. The Birmingham Engineer District will comprise the counties of Leicester, Nottingham, Northampton, Warwick, Stafford, Worcester and Salop; and for the same reason that certain counties of the Home Military District are attached to the Manchester Engineer District, the counties of Gloucester, Radnor and Hereford.

6. The Home Military District will comprise, besides the fractions of the Birmingham and Manchester Engineer Districts already specified, the Engineer Districts of South Wales, London and Colchester (or Eastern District).

7. The South Wales Engineer District to include the counties of Cardigan, Brecknock, Carmarthen, Pembroke, Glamorgan and Monmouth.

8. The London Engineer District to comprise Middlesex, Bedford, Berks, Hertford and Oxford, with Croydon as at present, and excepting the Store Establishments at Pimlico and Millbank.

9. The Colchester or Eastern Engineer District, to include Norfolk, Suffolk, Cambridge, Huntingdon and Essex, except Enfield, Waltham Abbey, Shoeburyness and the Thames Batteries.

10. The Dover Engineer District to comprise East Kent, bounded by the roads running through Faversham, Ashford and Tenterden, to a point between Towers 38 and 39 on the South Coast.

11. The Chatham Engineer District to comprise the remainder of Kent, except Sheerness and Woolwich, together with the Thames Batteries in Essex.

12. The Brighton Engineer District to comprise Sussex and Surrey, except Croydon.

13. The South West Engineer District to comprise the South West Military District, except Dorsetshire, which will form the Portland Engineer District.

14. The Western Engineer District to comprise Cornwall and Devonshire, as far east as the Rivers Teign and Torridge.

15. The Exeter Engineer District to comprise the remainder of Devonshire and Somersetshire, with Bristol and its vicinity.

No alterations will take place in the boundaries or extent of the Engineer Districts of Aldershot, Sandhurst, Woolwich, Sheerness, or that of the Manufacturing Departments.

V. MEMORANDUM.

General No. 1112. *War Office, 27th August*, 1860.

As instances may arise where Volunteers belonging to separate Corps may find themselves accidentally brought together under arms at Rifle Shooting Matches, or for other purposes, it is desirable that it should be generally and clearly understood that the Senior Officer present is to be considered as in command of all the Volunteers upon the ground; and that, although his position in this respect does not involve any authority for his interference in the arrangements of the meeting, yet he will be held responsible for the due maintenance of order and discipline among the Volunteers under arms.

Officers commanding Volunteer Corps. DE GREY AND RIPON.

ADMINISTRATIVE BATTALIONS.

4th September, 1860.

MEMORANDUM.—The object of the formation of an Administrative Battalion is to unite the different Corps composing it under one common head, to secure uniformity of drill among them, and to afford them the advantage of the instruction and assistance of an Adjutant; but it is not intended to interfere with the financial arrangements of the separate Corps or with the operation of their respective rules, or to compel them to meet together for Battalion drill in ordinary times, except with their own consent.

In order to secure this amount of independence to the various Corps composing an Administrative Battalion, it is necessary that each should remain a distinct Corps in

the meaning of the Volunteer Acts, for if this were not the case the funds of all the Corps would at once become vested in the Field Officer commanding the Battalion, under the 44 Geo. III. c. 54, sect. 50, and the powers specially conferred by those Acts on Commanding Officers will therefore remain vested in the Officer commanding each separate Corps.

The chief of these powers are as follows:—

1. Commanding Officers may grant leave of absence to Volunteers.—Sect. 7.
2. They are required to grant certificates to effective Volunteers resident or liable to be balloted for the Militia in any other county.—Sects. 10, 27.
3. They may discharge Volunteers for disobedience of orders, or any other sufficient cause, when not on actual service; and in case of misconduct not provided for by the rules of the Corps, may disallow the day as a day of attendance, or direct the forfeiture of a day's pay if otherwise due.—Sect. 28.
4. They may order Volunteers disobeying orders during exercise into custody.—Sect. 29.
5. They may appoint places for depositing arms and accoutrements, and persons to take care of them.—Sect. 42.
6. All monies subscribed for the use of any Corps, and all articles not being the property of Her Majesty's Government or of any particular individual, belonging to or used by the Corps, are vested in the Commanding Officer.—Sect. 50.

As the rules of each Corps must also, in accordance with the Acts of Parliament, remain in full force, any powers which those rules may confer on the Commanding Officer of the particular Corps will continue to be possessed by him after his Corps has become part of an Administrative Battalion as much as before. These rules can of course be at any time modified as the Corps may wish, provided the alterations obtain the sanction of the Lord Lieutenant and the approval of Her Majesty, in the usual way; but, until so modified, they will remain in full force and legal operation. An Administrative Battalion cannot have rules having legal force under the act 44 Geo. III. cap. 54, distinct from those of the separate Corps of which it is composed, and no authority, except that of Her Majesty, can override the rules of any Corps until they have been altered in the manner above alluded to.

Field Officer Commanding.

The position of the Field Officer commanding an Administrative Battalion is, under these circumstances, very similar to that of the Colonel of a brigade of Royal Artillery. Subject to the limitations imposed by the law, as above indicated, he will have the general charge of the drill and discipline of the several Corps composing his Battalion; he will inspect them from time to time, and will be responsible that the provisions of the law are obeyed and the orders of the Secretary of State for War relating to the use of the arms, the regulations about clothing, distinctive marks of rank, &c. are adhered to, and that uniformity in drill and, as far as can be attained consistently with the rules of the separate Corps, in interior economy also is preserved. When present at the drill or parade of any Corps, he will invariably take the command. If two or more Corps in the Battalion should wish to meet together for united drill, or if any Corps should desire to attend the field day of another Battalion or of any Corps out of its own Battalion, the permission of the Field Officer Commanding must first be obtained, and the drill, movements, &c., as far as Corps under his command are concerned, will be arranged by him.

The Field Officer commanding the Battalion will also be the channel of communication between the Officers commanding Corps and the Secretary of State for War or Lord Lieutenant.

When there are two Field Officers to an Administrative Battalion the junior will discharge such portion of the above duties as the Field Officer commanding the Battalion may from time to time assign to him, and in the absence of the Commanding Officer he will take the command of the Battalion.

Adjutant.

The Adjutant is under the orders of the Field Officer commanding the Battalion; but he is bound to conform to all instructions which he may receive from the War Office through the Inspector of Volunteers; such instructions will be transmitted to him through his Commanding Officer. He will also comply with the requisitions of the Assistant Inspector of his district, and will attend him on his inspections, if required. Besides the ordinary duties of an Adjutant, with which it is ascertained by examination that every Officer appointed to that post in a Volunteer Battalion is acquainted, it will be his duty to visit the different Corps composing his Battalion

as often as may be practicable consistently with their local distribution, and in accordance with the orders of his Commanding Officer. He should have a copy of the muster roll of each Corps, and should keep them correctly filled up to the end of each month, with all the alterations entered from the originals in the possession of the Commanding Officers of Corps. He will conduct the correspondence of the Battalion under the direction of the Field Officer Commanding, and he will be required to keep a diary according to a form to be issued shortly, open at all times to examination by the Inspector or Assistant Inspector of Volunteers. He will prepare and furnish all such returns as may from time to time be called for by the Secretary of State for War.

Correspondence and Returns.

The Commanding Officers of Corps forming part of an Administrative Battalion will correspond with the War Office or with the Lord Lieutenant through the Field Officer commanding their Battalion, and all letters addressed to them from the War Office or Lord Lieutenant should be transmitted through the same channel. All returns required by Act of Parliament to be furnished by the Commanding Officers of Volunteer Corps should be sent in a similar manner, except that ordered by the 44 Geo. III. cap. 54, sect. 11, to be delivered to the district surveyor of taxes, which should be sent direct to him by the Commanding Officer of each Corps. The responsibility imposed by section 15 of the same Act rests with the Commanding Officer of each Corps, and not with the Field Officer commanding the Battalion. All returns other than those required by law, which may be ordered by the Secretary of State, will be furnished, as above directed, by the Adjutant.

Arms and Stores.

The Commanding Officer of each separate Corps will be held responsible for all arms and other stores issued by the Government for the use of his Corps, and for all payments which may become due on account of such stores, but the correspondence relating to these matters will, like all other correspondence, be transmitted through the Field Officer commanding the Battalion.

WITH reference to the Circular Letter from this Office of the 29th February last (V.—General No. 740), relative to the appointment and pay of Adjutants of Volunteer Corps, I have now the honor to state that it has been decided that, in addition to the pay and allowances as laid down in that communication, an allowance at the rate of £4 per Company per annum will be made to all Adjutants of Volunteers from the dates of their respective Commissions, to cover contingent expenses incurred in connection with correspondence, &c., with this department; I have further to state that an additional allowance of Two Shillings per diem, in lieu of travelling expenses, will be made to the Adjutants of every Administrative Battalion in which the Head Quarters of any of the Corps composing the Battalion may be situated at a distance of more than Five Miles from the Head Quarters of the Battalion.

V.—General No. 1121.

War Office, 10th September, 1860.

I HAVE the honor to state, for your information, that I shall be prepared to sanction the appointment of a Serjeant Instructor to every Corps of Mounted Rifle Volunteers which is not entitled to the services of an Adjutant. The Serjeant Instructor so appointed will receive pay at the rate of 1*s.* 10*d.* per diem, with an allowance of 4*d.* per diem in lieu of lodging, fuel and light, and will, under the provisions of the 21st clause of the act 44 Geo. 3, cap. 54, be subject to the Mutiny Act and to the Articles of War, and will be liable to be tried by a court martial for any offence committed against that Act or Articles of War.

V.—No. 1121—*continued.*

The qualifications of a Serjeant Instructor of a Mounted Volunteer Corps should be as follows:—

1. Five years' service (three of which as a Non-commissioned Officer) in the regular Army, or in the Army of the late East India Company, or in Her Majesty's Indian Forces.
2. A competent knowledge of Mounted Drill.
3. A good character, as established by satisfactory testimonials.
4. The age of a Serjeant Instructor is not to exceed fifty years.

He will be required, if necessary, to be attached to a regiment of Infantry of the Line, to learn dismounted drill.

He will also be required to pass through a course of Musketry Instruction at Hythe, if he has not already done so.

Recommendations of Serjeant Instructors for Mounted Rifle Volunteer Corps should be made by Commanding Officers to the Lord Lieutenant of their County, and, if approved by him, should be submitted for the consideration of the Secretary of State for War.

I have to add, that in cases where the Corps consist of more than 100 enrolled members a second Serjeant will be allowed, and where the numbers exceed 200 a third Instructor on the same terms: and in every case the Serjeant Instructor should be mounted by the Corps on all mounted duties.

I have the honor to be, ——, your obedient Servant,

Her Majesty's —— Lieutenant for the County of ——. SIDNEY HERBERT.

CIRCULAR MEMORANDUM, No. 63—*continued.*

ORDNANCE SELECT COMMITTEE.

COMMITTEE MINUTE, No. 1216. REPORT No. 856.

7th June, 1860.

Present:—Colonel St. George, C.B., R.A.; Captain Sir W. Wiseman, Bt., R.N.; Colonel Robinson, R.E.; Colonel Greathed, C.B., h. p. Unatt.; Lieut.-Colonel F. Campbell, R.A. Colonel Lefroy, R.A., *Secretary.*

SUBJECT:—MARTIN'S LIQUID IRON SHELLS.

Remarks by the Committee.

The Committee beg to forward, for the information of the Secretary of State, a *precis* of the experiments carried on with these shells, between the 1st April, 1856, and the present time; together with remarks contained in the Minutes of the Committee after each experiment, and in two letters addressed to the Secretary of the Admiralty by Captain Hewlett of H. M. Ship "Excellent." From the successful nature of the experiments carried on with 10-inch shells of this construction, filled with molten iron, at Shoeburyness, on the 19th April, 1860, the Committee recommend their introduction into the Service.

8-inch Martin's shells, filled as above, were introduced into the Service by Lord Panmure's order in October, 1857.

No shells of this description have been tried for the 56 and 42-pounder guns.

The experiments carried on by the Committee with shells of this construction for 32-pounder guns have hitherto been unsatisfactory, and they cannot, therefore, recommend their introduction into the Service at present, but they think it desirable before finally settling this question that further experiments should be made with these shells against an actual ship's side; the targets made for the Committee, although representing a ship's side, wanted the oakum and pitch used for caulking a ship's side and decks, and were, consequently, not near so inflammable as a ship would be. The Committee recommend that the Admiralty be requested to cause some experiments with these shells to be made by Captain Hewlett, of H.M. Ship "Excellent," against an old ship.

With regard to the mode and extent of issue of these 10 and 8-inch shells, the Committee recommend that they should be issued in boxes with metal screw-plugs in the filling holes, that they should be stored in a dry place, and the attention of the Officers, in whose charge they may be, called to the necessity of keeping the interior thoroughly dry, on account of the danger which would arise from the presence of moisture whilst pouring in the liquid iron.

They should be issued to all Coast Batteries at Home and in the Colonies, to which ships can approach within 1,000 yards.

The shells, when filled, are to be brought up to the gun on a hot shot bearer, and placed in the gun, wads being used as with hot shot.

The 8-inch shells should never be fired until they have been filled four minutes, for they are liable to burst in the gun; they appear to be most effective when filled between five and eight minutes—after fifteen minutes the iron becomes solidified, but the shell will still act as a hot shot, and does not appear to alter its form even after being filled one hour. The same remarks appear to apply to the 10-inch shells, but the number of rounds of this nature that have been fired is not sufficient to furnish a precise rule. The charge used by the Committee with the 10-inch shells (filled and weighing 115 lbs.) was 8 lbs., the elevation necessary to throw the shell 400 yards was 2°, or about four times the elevation required to throw its own shell of 84 lbs. that distance with a 12 lbs. charge.

The Committee do not recommend higher charges than 8 lbs. for the 10-inch gun with these shells filled.

The charges used for the shells (filled and weighing 59 lbs.) with the 95 cwt. 68-pounder, have been 10 lbs., 8 lbs. and 6 lbs., the practice up to 600 yards was very good, and the elevation nearly the same as for its own shot of 68 lbs. weight, with the above charges.

The Committee recommend that charges not exceeding 10 lbs. be established for 10-inch guns for the present, with Martin's shells, and that a charge not exceeding 8 lbs. be used with the 8-inch gun of 65 cwt.

In concluding this Report the Committee beg leave to recommend that authority be given them to carry out the following experiments with these shells:—

1. Shells to be fired from a 95 cwt. 68-pounder, commencing with 16 lbs. charges, at a butt, or old vessel, at a distance of 1,500 yards. If the shells will not stand the 16 lbs. charges, the charge to be reduced 2 lbs. at a time, until the maximum charge the shells will withstand is ascertained.

CIRCULAR MEMORANDUM, No. 63—*continued.*

2. Shells to be fired from a 65 cwt. 8-inch gun at 1,000 and 800 yards, with a charge of 8 lbs.

3. 10-inch shells to be fired from a 10-inch gun, with 8 lbs. charges, at 800 and 600 yards.

4. Shells to be fired at fascines, gabions, platforms and carriages, to ascertain the effect of the liquid iron upon them. A few to be fired to ascertain its destructive effect for enfilading works.

5. A few shells to be filled for one hour, carefully gauged every quarter of an hour, and fired (if retaining their form) at the end of the hour; this last experiment is desirable, as the results of the only two shells fired after being filled near one hour are very different. An 8-inch shell filled one hour was fired in the Marshes on the 1st April, 1856, lodged in the butt, and set it on fire as a hot shot. An 8-inch shell fired from H. M. Ship "Excellent," on 17th September, 1859, after being filled 45 minutes, broke up in the gun. These shells were both fired with the same charge.

In Captain Hewlett's report of the practice against the "Serpent," 17th September, 1859, with these shells from a 95 cwt. 68-pounder, 10 and 8 lbs. charges, distance 750 yards, he makes the following remark:—"The flight of these shells is very uncertain, owing to their being eccentric. I think that a considerable number of them would be lost at ranges of 800 or 1,000 yards."

As this was the first practice that had been carried on from the "Excellent," the Committee think it possible that the shells were not quite filled up, which would account for their eccentricity, and consequent erratic flight. It is very necessary that these shells should be quite full, and as the iron settles down in the shell a little, a moment after it is poured in, it is better to fill up a second time.

TABLE showing Diameter and Weights of Martin's Shells.

NATURE OF GUN.	Thickness of Shell.		Diameter of Shell.		Weight.		Quantity of Molten Iron.	Diameter of Filling Hole.	Thickness of Coating Inside.	PROPOSED CHARGE.

10-inch	1·7	·9	9·8	9·84	70	115	45	1·2	·30	8 lbs.

The Ordnance Select Committee consider that the question as to what number or proportion of Martin's Liquid Iron Shells should be supplied for each 10-inch gun, 8-inch gun and 68-pounder in Coast defences, is one which can best be settled by the Special Committee, under Colonel Lake, Royal Artillery, which is now engaged in revising the Confidential Circular of 1853, on the subject of armaments, and therefore abstain from expressing any opinion upon it.

With reference to the supply of cupolas. As the number of cupolas required will depend upon the number of and calibre of the shells liable to be filled, no rule can be given for their supply, and the Committee consider it sufficient to recommend that one cupola of the pattern last tried at Shoeburyness, but with the improvements subsequently authorized (24. 5. 60. 79. M. 223), be furnished as early as possible to each detached work of Coast Defence at Home and to each fortress abroad, leaving further supplies to the discretion of His Royal Highness the Commander-in-Chief, when the number of shells has been determined.

The 8-inch Martin's shells, filled, weigh about 59 lbs., and the 10-inch shells about 115 lbs., neither of which weights agree with those of any other projectiles of those calibres, and the charges being also reduced, special Range or Practice Tables for them will be required. The data in possession of the Committee at present are not sufficient to furnish the proper elevations for different ranges, but they will do so hereafter.

(Signed) J. ST. GEORGE.

CIRCULAR MEMORANDUM, No. 63—*continued.*

The following are the Results of Experiments made with Mr. Martin's Shells filled with Liquid Iron.

1st April, 1856.—Eleven shells were fired from a 95 cwt. 68-pounder, with charges from 10 lbs. to 6 lbs. Eight rounds at a wooden bulkhead, and three rounds at masonry. Range, 600 yards.

The shells were carefully gauged before and after filling.

	Inches.	Expansion.
Diameter of shell before filling	7·87	„
„ one minute after filling	7·88	0·01
„ eight minutes after filling	7·885	0·15
„ one hour after filling	7·95	0·08

The wooden bottom commenced charring 3 m. after the shell was filled, bottom in flames in 15 m.; of the eight shells fired at the wooden bulkhead with 8 lbs. charges, six broke up and fired the bulkhead more or less, one struck short and entered the bulkhead *en-ricochet*, and set it on fire as a red hot shot. This shell had been filled one hour when it was fired, and although it had been rolled about its shape remained unaltered.

One shell filled 6 m. and another 4½ m., appear to have been the most effective in this practice.

At the eighth round the bulkhead was burned down. Three rounds were fired at masonry with 10, 8 and 6 lbs. charges; the shells broke and the iron was seen streaming out in every direction.

9th December, 1856.—The bulkhead fired at on this occasion does not seem to have been constructed in a proper manner; the supports were much shattered by the *first* shell, and the whole of the bulkhead above the shores was knocked away by the *second*.

Twelve shells were fired with 10 lbs. charges. Range, 600 yards. A shell was filled to test its expansion, it was gauged as follows:—

	Inches.	Expansion.
Diameter when cold	7·835	„
„ 15 m. after filling	7·860	0·025
„ 30 m. after filling	7·865	0·030
„ 45 m. after filling	7·860	0·025
„ one hour after filling	7·855	0·020
Greatest expansion		0·030

After the *twelfth* round the firing was discontinued in consequence of the unsuitable construction of the bulkhead.

Of the twelve shells fired, five struck the bulkhead, four broke, a sheet of flame was observed when they broke, but they failed to ignite the bulkhead. The shell which struck without breaking had been filled 5 m., but it appears merely to have grazed the upper corner. Three shells grazed short and broke; four missed the bulkhead.

The wind was blowing strong across the range during the practice.

One of the shells found whole at the butt, having been covered with chips and broken portions of the bulkhead, set fire to them in about two minutes.

The shells that broke and showed the greatest sheet of flame had been filled from 5 m. to 7 m. 30 s.

4th April, 1857.—A bulkhead was constructed for this experiment, representing the section of a 36-gun frigate, both sides of the ship and part of the main and upper decks being included:—

Nine shells were fired from a 68-pounder, 95 cwt., two at 600 yards, charge 6 and 8 lbs., time filled 9 m. and 12 m., section on fire in two places, but easily extinguished by a few buckets of water; large pieces of the iron from the shell which had been filled 12 m. were found laying on the deck,—they had taken the form of the shell. Two at 600 yards, 6 and 8 lbs. charges, time filled 13 m. and 15 m.; these two shells appear to have lodged without breaking, the first in the butt after *ricochet*, the second in the section. Smoke was observed coming up the hatchway after this shell struck, but it probably acted as a red hot shot.

Two at 600 yards, same charges, time filled 12 m. and 9 m.; both these shells struck the section. It is not stated that they broke up, but the last one must have done so, as a great deal of smoke was apparent, and on examination the section was found to be on fire in several places, but most seriously in the bulkhead, into which it was necessary to open a passage with axes, and then apply the rear fire engine to extinguish the fire.

CIRCULAR MEMORANDUM, No. 63—*continued.*

Two rounds at 400 yards, charge 6 lbs., time filled 10 m. and 12 m.; both these shells struck the section, and it was found to be on fire in three places. No note is made of their having broken up in the report of practice, but it seems likely they did.

Two red hot shot were fired with 6 lbs. charges at 600 and 400 yards; they both passed through the section and lodged in the butt.

One of Mr. Martin's shells was fired at the bulkhead covered with iron plates at the 400 yards' range; the shell on striking broke to pieces; the iron was scattered laterally to a distance of 150 yards. It rained during the experiment, and the section was very wet. Mr. Kershaw's cupola was used for melting the iron; time from lighting the fire to running the metal was 50 minutes; the cupola being in full work, and fresh metal thrown in, will run in 20 minutes.

29th May, 1857.—Twelve of Martin's shells, filled with liquid iron, were fired at the section of a frigate, distance 600 yards, charges 6 and 8 lbs., from a 95 cwt. 68-pounder gun:—

Three common shells filled with molten iron and three red hot shot were also fired. Seven of Martin's shells struck the section, time filled from 8 m. to 16 m. Three that had been filled 8 m., one with 6 lbs. and the other two with 8 lbs. charges, broke and ignited splinters of timber. Two that had been filled 12 m. and 14 m., fired with 6 lbs. charges, passed through front bulkhead without breaking, lodged in the rear bulkhead, igniting the timbers.

Two filled 14 m. and 16 m. with 8 and 6 lbs. charges passed through both bulkheads into the butt without breaking.

Five filled from 9 m. to 19 m. missed and went into butt, charges 8 and 6 lbs.

The three common shells filled 6 m., 5½ m. and 3 m. with 6 and 8 lbs. charges passed through both bulkheads without breaking.

Of the three red hot shot with 6 lbs. charges, two passed through both bulkheads without firing them; one missed.

2nd September, 1857.—Eight of Mr. Martin's shells filled with liquid iron were fired at the same section with a charge of 6 lbs. from a 95 cwt. 68-pounder, distance 600 yards:—

The first shell was filled 7 m. before firing, the other four shells 2 m.

They all struck the section and broke; smoke and flames were observed to issue from the section after each shell broke up. After the fifth round, the fire in the section was observed to be getting so much a-head that it was decided to cease firing for a time and put it out. An engine provided for the purpose was employed, but the efforts made were unavailing, and the entire section was destroyed.

16th November, 1859.—Experiments were carried on at Shoeburyness, at the section of a 36-gun frigate erected for the purpose, gun 56 cwt. 32-pounder.

Kershaw's cupola, and the small steam engine used at former experiments, were provided for heating the metal: the cupola having been heated, the metal was put in and was ready for running in 20 minutes. Twenty-seven of Martin's shells filled with molten iron were fired.

The first *five* rounds were fired with 8 lbs. charges, the time filled being 7 m., 8½ m., 10 m., 11 m. and 13 m.; they all seem to have broke on striking—the last three shells were red hot when put into the gun. The section was examined after the fifth round, and found to be on fire; the fire was easily extinguished by the aid of a small fire-engine; some of the liquid iron having run down between the timbers, it was found necessary to cut some of the wood work away to get at it with the hose. The fifth shell, which had been filled 13 minutes, broke on striking, but the contents were quite solid.

Six more shells were fired with 6 lbs. charges; the first one filled 1 m. broke at the muzzle of the gun; the other *five*, filled from 2½ m. to 3½ m., broke on striking the section. The charge was then reduced to 6 lbs. The *first* shell fired with this charge and filled 1 m. broke at the muzzle; another shell filled 2 m. broke at the muzzle. Fourteen more shells filled from 2½ m. to 4 m. were fired with 6 lbs. charges. Thirteen of them struck the section and broke up, one grazed short and broke on graze.

The bulkhead was examined after the *fifteenth, twenty-fourth* and *twenty-seventh* rounds; the section had not been set on fire.

CIRCULAR MEMORANDUM, No. 63—*continued.*

15th December, 1859.—Fifteen Martin's shells filled with liquid iron were fired at the section of the 36-gun frigate, at Shoeburyness, from a 32-pounder, 58 cwt. gun, distance 400 yards :—

Fifteen rounds were fired with 6 lbs. charges, time filled 9 m. to 3 m. One shell broke up at the muzzle filled 3 m. Twelve hit the section, three of them on the part covered with iron plates ; most of those that struck broke up. After the *fourth* round the section was on fire between the timbers ; the fire was easily extinguished. It was again on fire after the fifteenth round, but was easily extinguished ; axes had to be used to get at the fire between the timbers. The contents of one shell were found entire on the beach, and fired splinters immediately on being placed in contact with them.

Three of Martin's 8-inch shells, filled with molten iron, were then fired from a 68-pounder gun, 95 cwt., range 400 yards, charge 8 lbs., time filled 5 m., 8 m. and 4 m. The first shell set the section on fire, but it was easily extinguished ; the *other two* shells grazed short and burst on graze.

16th December, 1859.—Ten of Martin's shells, filled with liquid iron, were fired from a 32-pounder, 58 cwt., charge 5 lbs., at the section of the frigate distant 400 yards ; time filled from 3 m. to 8 m.

All these *ten* shells appear to have struck the section, and *all* broke up but *one* ; the section was slightly on fire, but was easily extinguished.

Ten shells filled as before were then fired at the section with 4 lbs. charges, from the same gun, time filled from 4½ m. to 2½ m. ; they all struck the section. Three struck the part covered with iron plates, and broke up ; six struck the wooden portion of the section and broke, and one that had been filled 2½ m. passed right through the section. The section slightly on fire, but easily put out.

Twelve shells filled as before were then fired from the same gun, with 6 lbs. charges, at 800 yards, to test precision of fire. Two targets were placed on the sea wall, it being considered desirable to preserve the remains of the section for further experiments.

Two of these shells filled 3 m. broke in the gun.

The practice with the remainder was as good as with round shot, charge 6 lbs., elevation $1\frac{1}{2}^{0}$.

The supply of metal was good throughout these experiments. The metal ran 20 m. after being put into the cupola.

27th April, 1860.—Twenty of Martin's 10-inch shells, filled with liquid iron, were fired, at Shoeburyness, at the section of the 36-gun frigate, distance 400 yards, from a 10-inch gun of 86 cwt., with charges of 8 lbs. :—

The *first six* were fired at the part of the frigate covered with iron plates of various thickness.

Three struck iron plates of 1½ in. and 2 in., time filled 11 m., 7 m. and 7½ m. They all broke up, breaking away and forcing in large portions of the plates, much of the broken shells and molten iron passing through into the section and setting it on fire. One filled 8 m. struck the top of rear bulkhead, and fell unbroken into the sea. One filled 8 m. struck the right edge of the rear of the section, and broke up, setting it on fire ; portions of the metal spread 50 yards on each side. One filled 8 m. passed through the hole made by a former shell, driving in a large piece of plate ; the shell broke up, but did not set fire to the section.

Seven were then fired at the woodwork ; the whole of them struck the section. Two filled 10 m. broke up and set the section on fire. One filled 10 m. grazed the section and fell into the sea unbroken. One filled 11 m. passed through both sides of the section without breaking. Two filled 8 m. struck section and broke up, setting the rear of the section on fire. One filled 8 m. struck the section and passed through without breaking up, although a large hole was knocked in it. It was recovered out of the sea, still retaining more than half of its contents.

Seven rounds were then fired at the iron plates, the wooden portion of the section being so much shattered as to offer insufficient resistance to break the shell. Four filled from 8 m. to 10 m. struck the plates, broke up, and set the section on fire. One filled 11 m. struck the shattered timber and passed into the sea unbroken. The practice does not record any particulars respecting two that were filled respectively 7 m. and 9 m., save that the *first one* struck the plates. The fire in the section was on each occasion easily extinguished.

After the cupola was heated, the metal was put in and ran in 20 m.

The whole of the above practice was carried on by the Ordnance Select Committee in their presence.

CIRCULAR MEMORANDUM, No. 63—*continued.*

The following Practice has been carried on at Portsmouth, under the direction of Captain Hewlett of H. M. Ship "Excellent."

15th September, 1859.—Eleven of Martin's 8-inch shells, filled with molten iron, were fired from a 95 cwt. 68-pounder, at the "Serpent," brig, distance 750 yards, charges 8 lbs. and 10 lbs.

Captain Hewlett remarks "that the brig had been so shattered with shot, and in so rotten a state, that for want of resistance to break the shells, I hardly anticipated any success in the experiments, which, however, have proved satisfactory so far as they have gone, inasmuch that the only *two* shells which struck the brig in anything like a sound part, broke up and set fire to her."

Of the eleven shells fired, two filled 9 m. and 5 m. 30 s. struck the brig in sound part, broke up, and set her on fire. One filled 6 m. 30 s. hit unsound part *en-ricochet*—did not break. Three filled 10 m. 5 s., 14 m. 6 s. and 9 m. struck unsound wood and did not break. Four filled from 6 m. to 15 m. 30 s. missed. One filled 45 m. broke in the gun, charge 10 lbs. The two last shells filled 15 m. 30 s. and 45 m. were fired with 10 lbs. charges, the remainder with 8 lbs.

24th November, 1859.—Five of Martin's 8-inch shells, filled with molten iron, were fired from a 68-pounder, 95 cwt., at the "Undaunted," frigate, distance varying from 200 to 350 yards. Four of them struck direct, time filled 4½ m. to 5 m.; they all broke up, setting the ship on fire. One struck *en-ricochet*, passed through the outer lining into the timbers, and lodged without breaking up, set fire to the ship, but the fire was easily extinguished. The fifth shell, fired at 350 yards, with 8 lbs. charge, set fire to the ship so effectually, that, in spite of all endeavours to extinguish it, the fire gained ground so rapidly, it was found necessary to sink her before it could be extinguished

The "Stork," gun-boat, brought her fire engine to play upon the fire, and, in addition, there was a fire engine on board. The men were obliged to abandon this latter after a short time, the heat of the fire became so great.

ABSTRACT OF REMARKS MADE ON FORMER OCCASIONS.

Sub-Committee B. of the late Ordnance Select Committee report very favourably of the molten iron shells after the practice on the 1st April, 1856, observing that "they consider the practicability of Mr. Martin's proposal, and the efficacy of the non-conducting material used to coat the interior of his shell, to have been fully established by the experiments made, &c."

On the 10th of February, 1858, the late Committee reported that "it appears these shells are easily filled, that they are more easily handled and placed in the gun than hot shot can be, that in using them there is less danger of bursting the gun than with hot shot, and that their incendiary power exceeds that of hot shot."

Captain Hewlett reports in a letter, dated the 17th September, 1859, addressed to the Secretary of the Admiralty, after trial against the "Serpent" brig:—"I am of opinion that these shells filled with liquid iron are more certain and destructive in their incendiary effects than red hot shot, or any other missile at present known."

Again, on the 25th November, 1859, a letter addressed as before:—"I now beg to call their Lordships' attention to the fact, that this trial appears to be a *very conclusive* one as to the immense effect and destructiveness of molten iron when used against wooden ships; each of the five shells that struck the vessel fired the ship more or less, and the effect was that she was obliged to be sunk to prevent her being totally destroyed by fire."

GENERAL ORDER. No. 762.

Horse Guards, S. W., 25th August, 1860.

THE proper position of the Officer commanding the Royal Artillery and the Commanding Royal Engineer at Reviews, State or other Ceremonials, or when inspected by a General Officer, not being clearly defined, His Royal Highness The General Commanding in Chief directs that upon such occasions, as a general rule, these Officers receive the Reviewing or Inspecting Officer at the head of their respective Commands, but that they immediately afterwards join the Staff.

Field Officers in Command will not, however, be required to take the head of single Batteries or Companies under their own Captains, but will join the Staff.

All General Officers must be aware that the maintenance of close and confidential relations between themselves and the heads of the Artillery and Engineers under their command is essential to the performance of their duties as regards those great branches of the Service.

With an Army in the Field this principle is always recognized to the fullest extent, and this recognition should prevail at all times and in all places.

His Royal Highness having fixed the place of these Commanding Officers at the formal reception of General Officers on parade, would impress on the latter that he considers this arrangement as an interruption of the usual relations between themselves and the heads of the Artillery and Engineers, and he therefore desires to make this interruption as brief as possible. In so doing he consults alike the benefit of the Service and that of the General Officers.

In the case of a Captain of a single Battery or Company being also the Commanding Officer of Artillery or Engineers on the spot, the General Officer Commanding will use his discretion as to this Officer's position during a Review.

By Command of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

JAMES YORKE SCARLETT,
Adjutant General.

Instruction of Musketry—3 (1860).

Horse Guards, S. W., 27th August, 1860.

THE General Commanding in Chief having intimated to the Secretary of State for War his opinion, that, in consideration of the men of regiments of Cavalry armed with Sharpe's breech-loading Carbines being required, in addition to their special duties as Cavalry, to be instructed in the theory and practice of musketry, and of their having much more labour than other branches of the Service, they should receive the rewards allowed for good shooting in the same manner as Infantry Soldiers, and Mr. Sidney Herbert having been pleased, in concurrence with Sir Charles Wood and the Lords Commissioners of the Treasury, to signify his assent to the proposed arrangement,

His Royal Highness accordingly desires, that the 1st and 2nd pecuniary rewards, and the supplementary prize for the Serjeants of the best shooting troop, be granted to Regiments armed with breech-loading Carbines sighted up to 600 yards, subject to the conditions contained in the existing regulations, modified as follows, viz. :—

1st. That the best shot of the Regiment shall be that Dragoon who, in the practice of the 2nd Class, firing between 400 and 600 yards, both distances inclusive, obtains the greatest number of points over 12.

2nd. That the best shot of the troop will be the Dragoon who, in the practice of the 2nd Class of his troop, firing between 400 and 600 yards, both distances inclusive, obtains the greatest number of points over 12.

Should Cavalry Regiments hereafter be armed with Carbines sighted up to 900 yards, they will then be allowed to contend for prizes according to the regulations heretofore applicable to Infantry only.

The Queen has been pleased to direct that the following Regulations respecting Foreign Orders and Medals shall be substituted for those now in force:

Regulations respecting Foreign Orders.

1. No Subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a Warrant under Her Royal Sign Manual.

2. Such permission shall not be granted to any Subject of Her Majesty, unless the Foreign Order shall have been conferred in consequence of active and distinguished Service before the Enemy, either at Sea or in the Field; or unless he shall have been actually and entirely employed, beyond Her Majesty's Dominions, in the Service of the Foreign Sovereign by whom the Order is conferred.

3. The intention of a Foreign Sovereign to confer upon a British Subject the Insignia of an Order, must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited at the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.

4. If the service for which it is proposed to confer the Order has been performed during War, the Notification required by the preceding Clause must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the service has been performed in time of Peace, the Notification must be made within two years after the date of such service.

5. After such Notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from naval or military Services before the Enemy, refer it to Her Majesty's Principal Secretary of State for the War Department, previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.

A similar reference shall also be made to the Commander-in-Chief, if the application relates to an Officer in the Army, or to the Lords of the Admiralty, if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favour it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the Warrant required by Clause 1 to be prepared for the Royal Sign Manual.

When such Warrant shall have been signed by the Queen, a Notification thereof shall be inserted in the *Gazette*, stating the service for which the Foreign Order has been conferred.

7. The Warrant signifying Her Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.

8. Every such Warrant as aforesaid shall contain a Clause providing that Her Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.

9. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding Clause shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by Her Majesty's predecessors, King George IV. and King William IV., on whose heads the Crowns of Great Britain and of Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of Clause 2 of these Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Regulations respecting Foreign Medals.

1. Application for permission to accept and wear Medals which, not being the decoration of any Foreign Order, are conferred by a Foreign Sovereign on British Subjects in the Army or in the Navy for military or for naval services, should be addressed, as the case may be, to the Commander-in-Chief, the Master-General of the Ordnance, or the Lords of the Admiralty, who, if they see fit, may submit the same to Her Majesty's Principal Secretary of State for Foreign Affairs for Her Majesty's sanction; upon obtaining which, they may grant such permission without any other formality.

2. Permission to wear a Foreign Medal cannot be granted to a British Subject, unless such Medal is bestowed for military or naval services performed by the command or with the sanction of Her Majesty. But no permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

General No. 27.

CIRCULAR, No. 629.
HOME AND FOREIGN.

War Office, 10th September, 1860.

To remove any doubt as to the extent of the benefit intended to be conferred on the well-conducted Soldier by the provisions of the Royal Warrant of 1st March, 1860, the annexed copy of the revised Good Conduct Regulations, embracing the aforesaid provisions, is circulated for the information and guidance of Officers charged with the administration of these Regulations.

The Secretary of State for War considers it necessary to point out that, as the Good Conduct Regulations as now revised are equally applicable to every branch of the Service, no deviation therefrom can on any account be permitted; and, in calling attention to their provisions generally, he directs especial attention to the rules laid down in the 10th and 11th paragraphs, page 5, relating to forfeiture and restoration of good conduct badges, and the pay attached thereto.

B. HAWES.

GOOD CONDUCT REGULATIONS.

1. A NON-COMMISSIONED Officer recommended by the Commander in Chief for the honorable distinction of a Commission without purchase will be allowed in aid of his outfit 150*l.*, if appointed to the Horse Brigade, Royal Artillery, or to a Regiment of Cavalry; 130*l.* if appointed to the Military Train or the Cape Corps; 100*l.* if appointed to Field, Garrison or Coast Brigades, Royal Artillery, including Non-commissioned Officers commissioned as Riding Masters, whether for service with Horse or Field Brigades of that Corps, and 100*l.* if appointed to the Royal Engineers or a Regiment of Infantry.

2. Sums not exceeding 4,400*l.* are distributed in granting annuities, as rewards for distinguished or meritorious service, to Serjeants recommended by the Commander in Chief, either while serving or after discharge, such discharge from the Cavalry or Infantry not being anterior to the 19th December, 1845, and from the Artillery and Engineers not anterior to 1st January, 1846, with or without pension, in sums not exceeding 20*l.*, which may be held during service and together with pension.

3. The Serjeants selected for this honorary distinction are entitled to receive and wear a silver medal, having on one side the royal effigy, and on the other the words "For meritorious service," and the name and Regiment of the Serjeant, with the date of its grant; and they will not be liable to forfeiture of the annuity and medal, except by sentence of Court Martial to that effect, or by conviction by Court Martial of desertion, &c., or by conviction of felony by a Court of Criminal Judicature in accordance with the provisions of the Articles of War.

4. A reward of additional pay and distinguishing marks for good conduct is granted under the following rules to every Corporal, Trumpeter, Drummer, Fifer, Bugler, Piper and Private Soldier (excepting the Corporals of the Life Guards and Horse Guards) enlisted or re-enlisted into the Cavalry or Infantry on or after the 1st September, 1836, and into the Artillery or Engineers on or after the 1st November, 1836:—

Having served 3 years, provided his name shall not have been entered in the Regimental Defaulters' Book for at least two years immediately preceding his claim	1*d.* a day.
Having served 8 years, and having been uninterruptedly in the receipt of 1*d.* a day for two years immediately preceding his claim	2*d.* a day.
Having served 13 years, and having been uninterruptedly in the receipt of 2*d.* a day for two years immediately preceding his claim	3*d.* a day.

CIRCULAR, No. 629—*continued.*

Having served 18 years, and having been uninterruptedly in the receipt of 3*d.* a day for two years immediately preceding his claim ... ... 4*d.* a day.

Having served 23 years, and having been uninterruptedly in the receipt of 4*d.* a day for two years immediately preceding his claim ... ... 5*d.* a day.

Having served 28 years, and having been uninterruptedly in the receipt of 5*d.* a day for two years immediately preceding his claim ... ... 6*d.* a day.

5. As a further reward of continuous good conduct, Soldiers who shall have completed 16 years' service, and whose names have not been entered in the Regimental Defaulters' Book for the last 14 years preceding their claim, may receive the rates of good conduct pay granted after 18, 23 and 28 years' service respectively two years earlier; that is, after 16, 21 and 26 years' service respectively.

6. If, having received the advantage for uninterrupted good conduct granted by the preceding paragraph, a man shall incur any forfeiture, he must lose all benefit acquired by him for such uninterrupted good conduct, and revert to the condition which requires 18, 23 and 28 years' service respectively to obtain 4*d.*, 5*d.* and 6*d.*

7. The service requisite to entitle men to the distinction and rewards granted above may include former service in all ranks after the age of 18 years.

8. Men transferred from the Marines are to keep the rewards obtained by them under the regulations applicable to that Service, and to be afterwards subject to these regulations.

9. Soldiers who were present at the Battle of Waterloo may reckon two years in addition to their actual service, and those who were enlisted in the Cavalry or Infantry before the 1st December, 1829, and in the Artillery or Engineers before 1st January, 1831, may reckon three years for two of actual service, after the age of eighteen, in the East and West Indies (in other than West India Regiments).

10. As this reward is strictly an honorable distinction to be conferred only upon the well-conducted Soldier, the Commanding Officers of Regiments are strictly enjoined to enter in the Regimental Defaulters' Book the name of every Soldier who shall be convicted by Court Martial, or who, in consequence of misconduct, shall be subjected to forfeiture of pay, either with or without imprisonment, or any other punishment beyond seven days' confinement to Barracks; and the commission of every offence which shall impose upon the Commanding Officer the necessity of recording the Soldier's name in the Regimental Defaulters' Book shall render the man ineligible for this reward for two years from the date of such entry, should no imprisonment be inflicted, and in case of imprisonment from the date of release; and, if he be already in possession of this distinction, shall deprive him of his distinguishing mark and good conduct pay for one year; and a second recorded offence within twelve months shall render two years of uninterrupted good conduct necessary to obtain a restoration of such reward.

11. The Soldier having two or more distinguishing marks shall in like manner forfeit one of such marks, and the good conduct pay allowed with it, for one year for each offence, such forfeiture to be reckoned from the date of entry in the Defaulters' Book or release from imprisonment, unless another offence be committed within the year, in which case the restoration of the first distinguishing mark and good conduct pay will be delayed until the completion of a year from the date of the last offence or release from last imprisonment, and the restoration of the second distinguishing mark and good conduct pay will be delayed until the completion of one year's uninterrupted repossession of the first distinguishing mark and good conduct pay, and so on with each subsequent forfeiture and restoration. If he shall forfeit all his distinguishing marks and good conduct pay, and before restoration of any one shall be recorded for a fresh offence, he shall forfeit all claim, in consequence of his previous good conduct, and shall only be entitled to obtain a restoration of his honorable distinctions by subsequent serving, with uninterrupted good conduct, for two years to obtain one distinguishing mark, for four years to obtain two distinguishing marks, for six years to obtain three distinguishing marks, for eight years to obtain four distinguishing marks, for ten years to obtain five distinguishing marks, and for twelve years to obtain six distinguishing marks.

12. A Soldier may, for a first offence of a serious nature, be adjudged by the sentence of a Court Martial to forfeit all or any part of the advantages he had derived from his

previous good conduct, either absolutely or for any period not less than eighteen months, according to the circumstances which shall have appeared in evidence.

13. A Serjeant or other Non-commissioned Officer above the rank of Corporal reduced to the ranks, who has not been sentenced by Court Martial to forfeit all or any part of the advantages of good conduct pay which might have accrued from his former service, or forfeited such advantages by conviction by Court Martial of desertion, &c., or conviction of felony by a Court of Criminal Judicature in accordance with the provision of the Articles of War, may be allowed to reckon his service as Non-commissioned Officer, as good conduct service, and in addition to his pay as Private shall be allowed the rate of good conduct pay which, with such service, he could have claimed in ranks below that of Serjeant in consequence of absence from the Defaulters' Book; but if such Serjeant or other Non-commissioned Officer above the rank of Corporal be reduced by sentence of a Court Martial, he shall be subjected by such reduction to the forfeiture of 1*d.* a day of such calculated good conduct pay for one year for the offence for which he was reduced.

14. A re-enlisted Soldier, who at the expiration of six months from the date of re-enlistment shall be allowed, on the recommendation of his Commanding Officer, the benefit of his former service, will be entitled from the date of re-enlistment to the rate of good conduct pay he was in receipt of at the time of his discharge.

15. When by the Queen's pardon a Soldier's service, which had been forfeited by desertion or any other cause, shall have been restored, the rate of good conduct pay the man was in possession of at the time of forfeiture shall also be restored, provided such restored pay, added to any other good conduct pay he may have acquired while under forfeiture, does not exceed the rate to which his total service, coupled with the prescribed continuous absence from the Defaulters' Book, would give him a claim; and in such cases the condition which, under the ordinary operation of these regulations, requires the uninterrupted possession for two years of one or more good conduct badges and pay attached thereto before another can be obtained, will not be enforced, but will be adhered to during the Soldier's subsequent service.

16. All Soldiers who enlisted in the Cavalry or Infantry before the 1st September, 1886, and in the Artillery or Engineers before the 1st November, 1836, may have the option of relinquishing their right to the additional pay of 2*d.* a day after 14 years' Artillery, Engineer or Infantry service, or 17 years' Cavalry service, and thereby become entitled to all the advantages of the good conduct regulations while serving, provided their names shall not have been entered in the Regimental Defaulters' Book immediately preceding the exchange for the several periods prescribed for each rate respectively.

17. Soldiers enlisted in the Cavalry or Infantry before the 1st September, 1836, and in the Artillery or Engineers before 1st November, 1836, shall be entitled to distinguishing marks, whether they accept or not the option of relinquishing additional pay for good conduct pay, and if they subsequently relinquish additional pay may have good conduct pay according to the number of marks in their possession.

18. Soldiers of the Ceylon Rifle Regiment, Gold Coast Artillery and Malta Fencible Regiments are entitled to good conduct badges under the provisions of these regulations, and good conduct pay at half the rates prescribed for Soldiers of the Regular Army.

41, CIRCULAR, No. 631.
General No. 71. HOME STATIONS.

War Office, 12th September, 1860.

THE Secretary of State for War has had under his consideration the question of the accommodation in Barracks for married Non-commissioned Officers and Soldiers.

Special Quarters for this object are being erected year by year as funds can be made available, but some time must necessarily elapse before such Quarters can be provided throughout Barracks generally.

With the view therefore of at once improving the condition of married Soldiers in those cases where special Quarters do not exist, Mr. Secretary Herbert has decided, in concurrence with His Royal Highness the General Commanding in Chief, and with the sanction of the Lords Commissioners of Her Majesty's Treasury, upon the following regulations:—

1. The allowance of lodging money to three per cent. of married Soldiers which has been hitherto permitted to be charged in the Regimental Accounts, irrespective of the amount of Barrack accommodation available, will cease from the 1st October, 1860, and lodging money will only be granted when accommodation in Barracks on the scale hereafter laid down cannot be afforded.

2. Every married Soldier not in excess of the numbers hereinafter specified living in Barracks shall, when a separate room has not been specially and permanently provided for his accommodation, be entitled to the amount of accommodation usually allotted to four single Soldiers; *i. e.*, a room lettered for twelve men shall be available for three married men, and one room's issue of fuel and light in kind shall be issued to the three families collectively.

The number of women to be admitted into Barracks to which this regulation shall apply shall not exceed the following scale:—

The wives of the Regimental Staff Serjeants.

The wives of the Serjeants of each Troop, Battery or Company in the following proportion:—

3 out of 4 or 5 Serjeants.	5 out of 8 or 9 Serjeants.
4 „ 6 or 7 „	6 „ 10 or upwards.

The wives of all other Non-commissioned Officers and men in the proportion of five to sixty men. Above that number of men at the rate of eight per cent. of the whole number of the Regiment, Battalion, Troop, Battery, Company or Detachment, as the case may be.

3. As a rule, unmarried Soldiers should be first accommodated in Barracks; any surplus accommodation should then be allotted to married Soldiers in the foregoing proportions, and any married Soldiers not in excess of the above number still remaining unprovided with Quarter should receive lodging money, it being clearly understood that the Serjeants and Soldiers having at present a separate room permanently set apart for their use are to be included amongst the numbers of married Soldiers entitled to the advantages of this Circular, and that in no case are the numbers of those thus accommodated in Barracks or drawing lodging money for want of accommodation to exceed together the numbers referred to in article 2.

4. The lodging money of married Soldiers for whom room cannot be found in Barracks will be increased from 2*d.* to 4*d.* a day.

This allowance will be claimed in the usual manner on form No. 1 of Circular 13, of the 1st September, 1856, to which must be added the joint certificate of the Commanding Officer and the Barrack Master that the number of married Serjeants and Soldiers included therein do not with the number accommodated in Barracks exceed those fixed by article 2.

be forwarded by the Officers commanding the Royal Artillery to the Deputy Adjutant General by 31st August in each year, such estimates being referred in the first place to the Military Storekeeper, who will specify thereon how far he can supply the Stores required.

2. When these estimates have been examined by the Deputy Adjutant General, they will be transmitted to this Office for approval, and such Stores as cannot be furnished by the Military Storekeeper on the spot will be added to his annual demand and supplied as early as possible, so as to enable him to meet the demands of the Royal Artillery.

3. Under this arrangement the Stores included in these *estimates* are not to be inserted in the annual demands from the Station, nor are they to be issued until the regular requisitions from the Commanding Officers of Artillery shall have been put forward and approved by the Secretary of State for War.

4. Military Storekeepers will, however, make demands for replacing, if necessary, all Stores issued for the use of the Royal Artillery, and generally they will be held responsible for maintaining a sufficient Store to meet the requirements of the several Services within their respective Districts.

CIRCULAR MEMORANDUM,

Addressed to General Officers in Command of Troops and Officers commanding Royal Artillery and Royal Engineers.

General No. 78. *Horse Guards, S. W., 13th October*, 1860.

It having been brought to the notice of His Royal Highness the General Commanding in Chief that there are no definite instructions as to the points on which Officers commanding Royal Artillery and commanding Royal Engineers should confer when projects for additions or alterations to works of defence are being prepared, His Royal Highness has, with the concurrence of the Secretary of State for War, approved of the following instructions on the subject, viz.:—

When an Engineer Officer receives orders to draw up plans for a Battery or for alterations to existing works of defence, he should consult with the Officer commanding Royal Artillery as regards the position and relative importance of the work, the number and nature of the guns and their direction of fire, the number of traverses and position of Magazines, whether guns should be casemated or not, or whether they should fire through embrazures or be mounted "*en barbette*;" all these being subjects for joint consideration.

The position of Artillery Stores, shell-filling rooms, side-arm sheds, their internal arrangements, the distance between the guns, and general form of embrazures, are points which, perhaps, belong more exclusively to the province of the Artilleryman than to that of the Engineer; but it is to be observed that the circumstances of the site may sometimes prevent the latter Officer planning the work precisely as the former would most desire, and a joint consultation is the best mode of arriving at a satisfactory conclusion.

Any remarks which the Officer commanding Royal Artillery may have to offer upon the subject should accompany the plan when transmitted for approval, should there be any difference of opinion.

All points of construction should be left to the Engineer, who is responsible for the proper execution of the work.

His Hoyal Highness cannot impress too strongly on the Officers of these branches of the Service the necessity for a cordial co-operation in carrying out these professional duties in which the services of Artillery and Engineering are so intimately connected.

By Command of His Royal Highness
THE DUKE OF CAMBRIDGE.

JAMES YORKE SCARLETT,
Adjutant General.

The drummers will form a third rank.

This does not apply to Bands of a Brigade massed whilst the Brigade marches past.

Addressed to the Army at Home and Abroad.

General No. 80. Married Soldiers—1 (1860).

Horse Guards, S.W., 22nd October, 1860.

HER MAJESTY having, by a recent Warrant, largely extended the indulgences conferred upon the Married Soldiers, His Royal Highness the General Commanding in Chief requests that Officers commanding Regiments will use their best endeavours to secure these benefits for deserving Soldiers.

His Royal Highness has reason to believe that, in some instances, these advantages have been conferred upon men of indifferent character, to the prejudice of those who by their good conduct and length of service have established a claim to these indulgences.

It is the duty of Commanding Officers most carefully to consider these claims, and when deserving Soldiers cannot be admitted on the strength of their Corps as married men, their applications should be registered.

By Command. JAMES YORKE SCARLETT,
Adjutant General.

GENERAL ORDER. No. 767.

Clothing for Store—5 (1860).

Horse Guards, S.W., 26th September, 1860.

LUCIFER Matches having been found in the pocket of a great coat recently returned into Store at the Tower, His Royal Highness the General Commanding in Chief finds himself compelled to direct attention to the Circular Instruction, dated War Office, 20th January, 1859, No. 375, and to desire that Commanding Officers will impress upon Officers, Non-commissioned Officers and Soldiers under their command the serious consequences that may result from inattention to the instruction referred to,—an extract from which is subjoined for their special information and guidance, viz.:—

"Numerous instances having occurred of lucifer and other matches being found in the pockets of articles of clothing returned to Store, I am directed by Secretary Major General Peel to request that you will cause all clothing to be thoroughly searched before sending it into Store, and to cause any matches or other articles discovered therein to be immediately removed."

By Command of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

JAMES YORKE SCARLETT,
Adjutant General.

GENERAL ORDER. No. 768.

Horse Guards, S.W., 4th October, 1860.

His Royal Highness the General Commanding in Chief is pleased to approve of General Officers commanding Districts and Divisions in *Great Britain*, and Officers commanding in Garrisons not included in any Military District, granting leave of absence to Officers and furloughs to Non-commissioned Officers and Soldiers, under the following regulations and restrictions, viz.:—

1. Leave of absence granted under this order to Officers may commence as soon as the Half-yearly Inspection shall have been made. Furloughs granted to Non-commissioned Officers and Soldiers may commence from the 1st of the next month.
2. These indulgences are to terminate on the 10th of March next, when, agreeably to Her Majesty's Regulations, all Officers and Soldiers are to be present with their respective Regiments and Depôts.

GENERAL ORDER, No. 768—*continued.*

3. One Field Officer, one-half of the Captains and one-half of the Subaltern Officers are always to be present.
4. No Officer (except in the performance of duty or for the purpose of joining his Regiment) is to quit the United Kingdom without having first received Her Majesty's special permission according to the regulation on that head.
5. Officers employed on the Recruiting Service or upon the Staff of the Army are not to be included in the number hereby fixed for the constant duty of the Regiment or Depôt.
6. The applications for leave for Regimental Paymasters and Medical Officers are to continue to be made in the mode prescribed in the Regulations and Orders for the Army.
7. In cases of short leave of absence being requested by Adjutants, Riding Masters, Quarter Masters or Veterinary Surgeons of Regiments, it will be necessary that a special report be made as to the mode in which their duties are to be performed during their absence, and that the Commanding Officer is satisfied.
8. The proportion of Non-commissioned Officers, Trumpeters, Drummers and Private Men, to whom furloughs may be granted, is not to exceed twenty per Battery of Horse and Field Artillery, or ten per Troop, Battery of Garrison Artillery or Company. Commanding Officers of Regiments returning from India may exercise a liberal discretion in granting furloughs to Soldiers who came home with their Corps.

When Corps are not stationed in Garrisons or Military Districts, the Officers commanding are at liberty to use their discretion in granting the indulgence of leave of absence, under the foregoing restrictions, to the Officers and Soldiers under their command, reporting the same to the Adjutant General.

His Royal Highness expects that the General and other Officers, who are empowered to grant leave of absence under the provisions of this Order, will strictly confine that grant to the proportion of Officers herein specified.

By Command of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

JAMES YORKE SCARLETT,
Adjutant General.

ORDER OF THE BATH.

War Office, 9th November, 1860.

THE QUEEN has been graciously pleased to give orders for the appointment of Lieutenant General *Sir* James Hope Grant, *K.C.B.*, commanding Her Majesty's Military Forces in China, to be an Ordinary Member of the Military Division of the First Class, or Knights Grand Cross, of the Most Honourable Order of the Bath.

THE VICTORIA CROSS

CONTINUED FROM

"*The Monthly Army Lists*" of March, June, July, October and December, 1857, January, February, May, July, September, October and November, 1858, January, February, May, June, July, August, October, November and December, 1859, and February, March, June, July, September and October, 1860.

War Office, 8th November, 1860.

THE QUEEN has been graciously pleased to signify her intention to confer the Decoration of "The Victoria Cross" on the under-mentioned Officers and Soldier of Her Majesty's Army, whose claims to the same have been submitted for Her Majesty's approval, on account of Acts of Bravery performed by them in India, as recorded against their names, viz.:—

7th Hussars (now of the 11th Hussars).—Major CHARLES CRAUFURD FRASER.—Date of act of bravery, December 31st, 1858.—For conspicuous and cool gallantry, on the 31st of December, 1858, in having volunteered, at great personal risk, and under a sharp fire of musketry, to swim to the rescue of Captain Stisted and some men of the 7th Hussars, who were in imminent danger of being drowned in the River Raptee, while in pursuit of the rebels. Major Fraser succeeded in this gallant service, although at the time partially disabled, not having recovered from a severe wound received while leading a Squadron in a charge against some fanatics, in the action of Nawabgunge, on the 13th June, 1858.

78th Foot.—Surgeon JOSEPH JEE, *C.B.*—Date of act of bravery, 25th September, 1857.—For most conspicuous gallantry and important services, on the entry of the late Major General Havelock's relieving force into Lucknow on the 25th September, 1857, in having during action (when the 78th Highlanders, then in possession of the Char Bagh, captured two 9-pounders at the point of the bayonet), by great exertion and devoted exposure, attended to the large number of men wounded in the charge, whom he succeeded in getting removed on cots and the backs of their comrades, until he had collected the dooly bearers who had fled. Subsequently, on the same day, in endeavouring to reach the Residency with the wounded men, Surgeon Jee became besieged by an overwhelming force in the Mote-Mehal, where he remained during the whole night and following morning, voluntarily and repeatedly exposing himself to a heavy fire in proceeding to dress the wounded men who fell while serving a 24-pounder in a most exposed situation. He eventually succeeded in taking many of the wounded, through a cross fire of ordnance and musketry, safely into the Residency, by the river-bank, although repeatedly warned not to make the perilous attempt.

93rd Foot (late).—Colour Serjeant JAMES MUNRO.—Date of act of bravery, 16th November, 1857.—For devoted gallantry, at Secunderabagh, on the 16th November, 1857, in having promptly rushed to the rescue of Captain E. Walsh, of the same Corps, when wounded, and in danger of his life, whom he carried to a place of comparative safety, to which place the Serjeant was brought in, very shortly afterwards, badly wounded.

It having been decided that Officers of Militia Regiments who are Candidates for Commissions in the Army should not be required to undergo the same Examination as that laid down in the Memorandum dated Horse Guards, 1st October, 1859, the following Regulations will be adopted henceforth in the cases of Militia Officers *who have served continuously as such for Eighteen Months.*

A.—12. MEMORANDUM.

Horse Guards, S. W., 13th November, 1860.

It having been decided that Officers of Militia *who have served continuously as such in an embodied Regiment for eighteen months,* and who have been, or may hereafter be, noted as Candidates for Commissions in the Army, whether by or without purchase, should not be required to undergo the same examination as that laid down in the Memorandum dated "Horse Guards, 1st October, 1859" (but which, however, they will still be allowed to pass if they prefer it). The following Regulations will be adopted henceforth in the cases of Militia Officers to whom they may be applicable, it being understood that the same rule as to age and physical constitution will be adhered to as that stated in the second and third paragraphs of the Memorandum above quoted.

The Examining Board will consist of three Field Officers of the Army, who will be required to ascertain, *by written questions and replies,* that the Candidates possess the following qualifications:—

SUBJECTS OF EXAMINATION.

1. *English Spelling and Composition.*—The Candidates' proficiency in these respects will be estimated from their written answers to the Examination Questions.
2. *Regimental Accounts and Regimental Savings' Bank Accounts.*—Candidates will be expected to be well acquainted with this subject, which is essential to qualification.
3. The Candidates must have a thorough knowledge, and must give an account, of the duties they have to perform as Regimental Orderly Officers, as Officers commanding Guards or as Subaltern Officers of Guards under Officers of superior rank.
4. They must have a thorough knowledge of, and be able to put a Company through, the Manual and Platoon Exercise, and be capable of exercising both a Squad and Company in the drill and evolutions as prescribed in the first two parts of the Regulations for the Field Exercise of the Infantry.
5. They must know exactly the place of all the Company Officers in every situation of the Battalion, and be able to command a Company in Battalion exercise.
6. They must be acquainted with such parts of the Queen's Regulations and Orders for the Army as relate to the duties and conduct of a Subaltern Officer, and with the Mutiny Act and Articles of War, so far as is necessary for the performance of their duties as members of a Court Martial.
7. They must be acquainted with the Queen's Regulations in regard to the pay and messing of the Troops and the supply of necessaries.
8. They must know the weight of the knapsack, the weight of the Soldier's firelock with and without the bayonet; of his pouch with and without ammunition, the quantity of ammunition it is calculated to carry, and the weight of his accoutrements.

The Board will ascertain by practical examination, and not by the acceptance merely of verbal or written answers to questions, whether the Officer is instructed in the subjects specified in the above paragraphs 4 and 5.

The General or other Officer commanding the District or Station at which the Board may be assembled will forward the Report of the Board (with the written questions and replies, and medical certificates) to the Military Secretary for the information of His Royal Highness the General Commanding in Chief, accompanied by his own observations thereon.

W. F. FORSTER,

CIRCULAR, No. 638—*continued.*

PENSIONS AND GRATUITIES TO OFFICERS OF THE LAND FORCES,
LIMITED TO WOUNDS AND INJURIES RECEIVED IN ACTION.

Gratuity of One Year's Pay.

1. If an Officer shall receive a wound in action, which shall occasion the loss of an eye or a limb; or shall lose thereby the total use of a limb; or shall receive bodily injury equal or nearly equal in its consequences to the loss of a limb, he may receive a gratuity in money of one year's full pay, of the regimental rank or staff appointment held by him at the time he was wounded, for the loss of such eye, or limb, or for such injury.

Pension.

2. If an Officer shall be wounded in action, and it shall be reported by a Board of Army Medical Officers assembled by order of the Secretary of State for War for the personal examination of such Officer that he has, in consequence of his wound, lost a limb or an eye, he may be recommended to Her Majesty for a pension, at the rate fixed in the annexed Scale for the rank held by him when he was wounded, and commencing one year after the wound was received.

Loss of more than One Limb or Eye.

3. If the Officer shall have lost more than one limb or eye, he may be recommended for a pension for each limb, or for each eye, so lost in action.

Temporary Pension.

4. If the wound received by an Officer in action shall be so severe in its permanent effects as to be fully equal, or nearly equal, to the loss of a limb, and the injury shall be so reported by the Military Medical Board, he may be recommended to Her Majesty for a temporary Pension, the continuance of which shall depend upon subsequent examinations before a Military Medical Board.

Gratuity.

5. If any wound received in action shall be certified to be severe and dangerous, but in its permanent effects not nearly equal to the loss of a limb, the Officer receiving such wound may receive a gratuity, varying, according to the nature of the case, from three to twelve months' full pay of the regimental rank or staff appointment held by him at the time he was wounded.

Permanent Pension.

6. If an Officer shall have held a pension for a wound received in action for a term of five years, and shall have been examined, twice at the least, before a Board of Army Medical Officers, he may be recommended for the permanent continuance of such pension; but if the Officer, before the expiration of the term of five years, shall have so far recovered that his wound or injury is not equal nor nearly equal to the loss of a limb, then he shall cease to receive such pension.

Limit of Application for Pension.

7. If within the period of five years after a wound has been received, an Officer shall not apply for the pension, or, on his so applying for it, the wound shall not have been proved to be permanently equal nor nearly equal to the loss of a limb, such Officer's claim to a pension for such wound shall not at any subsequent period be entertained.

Gratuity.

8. No gratuity for any wound shall be granted after the lapse of five years from the time the wound was received.

Loss of Vision.

9. No pension for the loss of an eye, from a wound received in action, shall be granted unless the actual loss of vision shall have occurred within five years after the wound was received, and be solely attributable to such wound.

Brevet Rank or duties superior to those of Regimental Commission.

10. As a general rule, the pension or gratuity shall be granted according to regimental rank; but in cases in which Officers, with or without brevet rank, shall have b

Pensions tenable with Pay.

11. These pensions may be held together with any other pay and allowances to which an Officer may be entitled, without any deduction on account thereof, and may continue to be held should the Officer leave the service.

New Rates applicable for the future to Officers wounded since Declaration of War with Russia.

12. Officers who are still suffering from wounds received since the 28th March, 1854, the date of the declaration of war with Russia, should such wounds be certified by a Military Medical Board to be now equal or nearly equal to the loss of a limb, may receive pensions from the present time according to the provisions of this Warrant.

General No. 86. RECRUITING DEPARTMENT.

Horse Guards, S. W., 13th November, 1860.

IN every instance of the enlistment of Volunteers from the Militia into the Regular and Indian Military Forces, Commanding Officers are required to report to Adjutants of Militia the approval, or otherwise, of the men within the period specified in the Conditional Discharge Certificate received by the Volunteer from the Militia previous to his enlistment into the Regular or Indian Army.

The attention of Commanding Officers is called to the annexed Circular Memorandum, addressed to Inspecting Field Officers of Recruiting Districts, prohibiting Recruiting parties from attempting in any way to induce Militiamen to leave their respective Regiments, in order to enlist into the Line.

By Command of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

CIRCULAR MEMORANDUM,

Addressed to Inspecting Field Officers of Recruiting Districts.

RECRUITING DEPARTMENT.

Horse Guards, S.W., 14th June, 1860.

ALL Recruiting Parties are to be strictly forbidden from attempting in any way to induce Militiamen to leave their respective Regiments in order to enlist in Her Majesty's Regular Forces; Militiamen having no more right so to enlist than men of one Line Regiment have to enlist in another without the consent of their Commanding Officer. Such a proceeding on their part amounts to desertion, and will expose them to the penalties attached to that offence, a liability which every opportunity should be taken to make known.

Volunteers, therefore, who may be anxious to enlist in the Regular Army should apply for permission to their Commanding Officers, who will exercise their discretion as to granting their request.

It is to be clearly understood that in all cases of men receiving conditional releases for the purpose of enlisting into the Line, they will, as now, be required to refund 18*s.* 6*d.*, to cover the bounty and other expenses incurred on their enrolment; also any balance of bounty they may have received in advance on account of their first engagement, if reattested for a second.

By Command of HIS ROYAL HIGHNESS
THE GENERAL COMMANDING IN CHIEF.

Sir,—The question of the supply of Floating Targets for the use of Artillery Volunteer Corps when engaged in practice with Ordnance, and of Boats for placing the Targets, having been brought under the notice of the Secretary of State for War, I am directed to inform you that Mr. Secretary Herbert has decided that a sum not exceeding £7 : 13*s.* shall be allowed for such Artillery Volunteer Corps as are desirous to procure a Floating Target, the maximum cost of which complete is estimated as follows:—

The amount actually paid for the Target (not exceeding the above-mentioned sum) will be recoverable by the Corps, upon a claim for the same being made to this office, inclosing the receipted bill of the Contractor who undertook the supply.

The hire of Boats to place the Targets will in all cases be borne by the Corps.

I am to add that in cases where it is impossible to have the Targets made in the neighbourhood of the Battery, application should be made to this Office on the subject.

V. MEMORANDUM.

General No. 1,255. *War Office, 10th November, 1860.*

THE Secretary of State for War has learned with regret from the Reports of Inspecting Officers that some of the Government Arms in possession of certain Corps of Volunteers are nearly unserviceable from dirt and rust; that, in some instances, Rifles which were foul from previous firing had been left uncleaned for a month, and that, in others, some of these valuable Arms have been taken away by members of Corps, and even lent out by them for private purposes.

Mr. Secretary Herbert, in reminding Commanding Officers of their responsibility in regard to the Government Arms intrusted to the Corps under their command, thinks it necessary to point out that the barrel of a Rifle is so delicately finished that the action of rust inside must inevitably destroy the integrity of the grooves, and that, consequently, independently of the discredit which attaches to a Corps the members of which prove to be unfit to have the charge of such weapons, serious damage is done to the property of the public by those whose pride it should be to maintain their Arms in perfect order.

The Establishment of Officers and Non commissioned Officers for a Company of Volunteers is amply sufficient to ensure a proper supervision of the Arms consistently with other occupations. Mr. Herbert is therefore forced to the conclusion that neglect of duty must always exist in Corps where Arms are reported to be nearly unserviceable through dirt.

The cleaning of a Rifle constitutes an important part of the drill of every Recruit,—see Field Exercise, sect. 33, part 6.

"Too much pains cannot be taken to impress upon the minds of the men the "necessity of preserving their Rifles, at all times, in the highest condition, and the "impossibility of producing accurate shooting with them when dirty. This is the "first exercise in which the Recruit is to be instructed."

The habitual inspection of the Arms upon parade forms an equally important branch of the duty of an Officer.—Sect. 31, part 6.

With the Arms at the "port" and at "half-cock, "the inspecting Officer will pass "down the ranks to ascertain that the locks and sights are serviceable and perfectly "clean, and that the nipples are free from rust."

With regard to the examination of the barrel, the piece of rag kept in the pouch having been placed in the jag or slit in the head of the ramrod, and passed down the inside,—"the Officer will proceed to ascertain if the insides of the barrels are clean or "otherwise.

"if clean no dirt should appear on the rag."

These are simple rules, and the strict observance of them should become the habit of every Officer and Volunteer.

DE GREY AND RIPON.

To Officers commanding —— Volunteer Corps.

V. PRACTICE RETURNS.

Art.—Gen. No. 199.

War Office, 16th November, 1860.

SIR,—I am directed by Mr. Secretary Herbert to inform you, with reference to the Circular Memorandum of the 30th of September last, that the instructions therein contained are intended to apply to Artillery as well as to Rifle Volunteer Corps, with this exception, that on matters relating purely to the Artillery Service applications should be made by the Officer Commanding an Artillery Volunteer Brigade or Corps to the Officer Commanding the Royal Artillery in the Military District in which the Head Quarters of the Brigade or Corps are situated.

I am further to acquaint you that Returns of Practice with shot and shell should be transmitted quarterly on the annexed forms, through the same channel, for the information of the Secretary of State for War.

I have the honor to be, Sir, your obedient Servant,
